HOLDEN

FINE GOODS TRANSPORT

PARTNER COLLECTION STANDARD

COLLECTIBLE FURNITURE · FINE ART · HIGH-VALUE OBJECTS

Four steps at every pickup.

HOLDEN coordinates specialist transport across Europe. These steps protect every piece and keep the chain of responsibility clear — from pickup to handover.

01 Photograph before packing

Take clear photos of the complete item from every side before touching or packing it. Add close-ups of any existing damage. Take one final photo after packing and send the full set to HOLDEN.

02 Soft pack before loading

Use clean transport blankets and protect corners and delicate parts. Apply stretch film only over the protective layer — never directly onto the object. Secure the piece so it cannot move in transit.

03 Keep documents with the shipment

Collect all original paperwork received at pickup. Place it safely in an envelope and keep it with the shipment until handover, as stated in the transport order.

04 Check before loading

Compare the item with the order before it goes into the van. If it differs, has undocumented damage or can't be packed safely, call HOLDEN first. We'll decide together.
